## Product description

**Bioaron D 1000 IU** drops is a dietary supplement intended to supplement the diet of children, adolescents and adults with vitamin D. One drop contains 1000 IU of vitamin D. **Indications** The product is intended to supplement the diet of children, adolescents and adults with vitamin D. **Action** Vitamin D, known as the sun vitamin, supports many processes in our body: supports the proper functioning of the immune system, helps maintain adequate levels of calcium in the blood, helps in the proper absorption and utilization of calcium and phosphorus. **Recommended daily intake** Children over 1. years of age: 1 push of the dosing pump (1,000 IU) daily, directly by mouth or with a meal, depending on body weight and dietary vitamin D supply, year-round. Youngsters over 11. years of age and adults: 1-2 presses of the dosing pump (1000-2000 IU) per day, directly by mouth or with a meal, depending on body weight and dietary vitamin D supply, throughout the year. **Composition** **Ingredients** Vegetable-derived MCT oil (medium-chain triglycerides), cholecalciferol derived from lanolin (vitamin D). **Content** 10 ml
